## Fanshawe College - Student Feedback Survey

The Student Feedback Survey (SFS) is an important tool that provides opportunity for continuous improvement in teaching and learning. SFS results offer valuable insight into your teaching practices. Positive changes in teaching practices can lead to improvement in student learning and engagement.

The survey does not require students to enter a response for every statement. As a result, the number of responses for individual statements may vary.

Please keep the response rate in mind when interpreting the SFS results. If only a small proportion of students in your course completed the survey, the feedback might not represent the viewpoint of an entire class.

**Please note:** The overall mean score on this report may differ from the overall mean score on the Individual "All Courses" Report due the fact that this report includes responses from all courses regardless of whether or not the threshold was met. (Threshold = 4 or more responses)
